# OFFICE OF THE CITY MANAGER/EXECUTIVE DIRECTOR 65 Civic Avenue Pittsburg, CA 94565

TO: Mayor/Chair and Council/Governing Board Members

**FROM:** Garrett Evans, Executive Director/City Manager

**SUBJECT:** Adoption of a Resolution Making Findings in Support of Continuing to

Hold Public Meetings by Teleconference Pursuant to California

Government Code Section 54953(e)

MEETING DATE: November 29, 2021

#### **EXECUTIVE SUMMARY**

Assembly Bill 361 (AB 361) amended the Brown Act to allow cities to continue to meet remotely during proclaimed states of emergency under specified conditions. Findings must be made every 30 days.

#### FISCAL IMPACT

There is no fiscal impact to the General Fund by this action.

#### **RECOMMENDATION**

The City Council, Successor Agency Governing Board, Pittsburg Power Company Governing Board, and Housing Authority Governing Board, adopt the attached resolutions and hold remote public meetings for the month of December 2021 in accordance with the requirements of AB 361.

#### BACKGROUND

Beginning in March 2020, Governor Newsom issued a series of Executive Orders aimed at containing the novel coronavirus. Among these were Executive Orders—N-25-20 and N-29-20 (collectively, the "Brown Act Orders") — that waived requirements in the Brown Act expressly or impliedly requiring the physical presence of legislative body members, staff, or the public at local agency meetings.

On June 11, 2021, the Governor issued Executive Order N-08-21, to begin winding down some of the prior measures that were adopted to respond to COVID-19. Notably, N-08-21 established an end date to the Brown Act Orders, effective September 30, 2021.

On September 16, Governor Newsom signed Assembly Bill 361 which amended the Brown Act to allow cities to continue to meet remotely during proclaimed states of emergency under specified conditions and so long as certain findings are made by a majority of the legislative body. Findings were made on November 1, 2021, and are effective through December 1, 2021.

#### **SUBCOMMITTEE FINDINGS**

This item was not presented to a subcommittee.

#### **STAFF ANALYSIS**

Cities that wish to continue meeting by teleconference must comply with the requirements of California Government Code Section 54953, which was amended by AB 361.

Specifically, newly amended Government Code Section 54953 requires the following procedures:

- Give notice and post agendas as otherwise required by the Brown Act;
- List on the agenda how the public can electronically attend and comment at the meeting. Note that a public agency is not required to offer an in-person option for the public to attend and comment at such a meeting;
- Provide an opportunity to comment in advance of and during the meeting;
- Allow a reasonable amount of time to register, if required, and comment on each agenda item or at least the amount of time allowed per agency meeting protocols, whichever is longer;
- No action may be taken during a disruption that inhibits the broadcast of the meeting or the public's ability to comment;
- All votes must be via rollcall;
- Comply with state and federal civil rights and non-discrimination laws; and
- Take all precautions to protect the statutory and constitutional rights of the public.

While it only applies in situations where the Governor has proclaimed a state of emergency, and not, for instance, when only a local health officer has declared an emergency, AB 361 provides an explicit avenue for local public agencies to meet remotely in the case of a public health, or other, emergency that inhibits the opportunity to meet in person. AB 361 provides the flexibility to meet by teleconference through December 31, 2023, unless extended.

Should the City Council elect to meet in person for the month of December, staff recommends that the meetings not be in hybrid format due to technological challenges. In addition, staff recommends if the City Council elects to meet in person that Commissions also meet in person and the Subcommittees remain in teleconference format.

The Resolutions, as currently written, would make the findings to allow all meetings to be teleconferenced through December 2021.

# OFFICE OF THE CITY MANAGER/EXECUTIVE DIRECTOR 65 Civic Avenue Pittsburg, CA 94565

**TO:** Mayor and Council Members

Planning Commission Vice Chair and Commissioners

**FROM:** Garrett Evans, City Manager

**SUBJECT:** Joint City Council and Planning Commission Workshop: Envision

Pittsburg General Plan Update Land Use Alternatives

MEETING DATE: November 29, 2021

#### **EXECUTIVE SUMMARY**

As part of the General Plan Update process, the City released a Land Use Alternatives and Capacity Report for public input in March 2021. In March and April 2021, the City and the City's consultant hosted a Land Use Alternatives Survey and held one stakeholders workshop and two community workshops to seek input from residents, stakeholders, and interested parties. On June 14 and September 13, 2021, the City Council and Planning Commission held the first two Joint Workshops to discuss the proposed Land Use Alternatives. Staff will be presenting a revised alternative and growth projection that incorporates comments from the first two workshops, which will be analyzed in detail in the Envision Pittsburg Draft Environmental Impact Report (Draft EIR).

#### **RECOMMENDATION**

Staff recommends that the City Council and Planning Commission discuss Land Use Map Alternative D, provide input to staff, and direct staff to commence analysis of the Land Use Map as part of the required Draft EIR.

### **BACKGROUND**

The Envision Pittsburg General Plan Update began in 2019. The Envision Pittsburg process includes four primary phases:

- The first phase established existing conditions for the General Plan Update and was completed in 2019.
- The second phase identified the community's vision for the General Plan Update, which is summarized in the Vision and Opportunities Report. This included analysis of four Opportunity Areas, including two Brownfields Revitalization Sites, as described in the Opportunity Areas Survey Results, and culminated with the Land Use Alternatives and Capacity Report, which was presented to the community in

- March 2021.
- The third phase, currently underway, includes development of the preferred draft Land Use Map and associated preparation of the Draft General Plan policy document, both of which will be analyzed in the Draft EIR.
- The final phase involves circulating the Draft General Plan and Draft EIR for community input, followed by Planning Commission and City Council adoption hearings.

In March 2021, the City released a Land Use Alternatives and Capacity Report for public input. In spring 2021, the City and the City's consultant hosted a Land Use Alternatives Survey and held one stakeholders workshop and two community workshops to seek input from residents, stakeholders, and interested parties.

On June 14, 2021, the City Council and Planning Commission held the first Joint Workshop to discuss the three initial alternatives prepared. Following the discussion, the Joint body directed staff to prepare a "hybrid" land use alternative (referred to as "Alternative D") which contained elements of the three initial alternatives. On September 13, 2021, the City Council and Planning Commission held a second Joint Workshops to discuss Alternative D. The Councilmembers and Commissioners requested staff and the City's consultant make minor modifications to land use designations within the PG&E corridor which runs through the City, specifically removing a residential designation, revisit the residential development estimates. Staff has prepared two further alternatives – D1 and D2 – which refine the multifamily and mixed-use development estimates.

All materials prepared to-date are available for public review on the Envision Pittsburg website: pittsburg.generalplan.org.

#### **STAFF ANALYSIS**

The City Council and Planning Commission are asked to consider Land Use Land Use Alternatives D1 and D2, which have been developed based on comments from the previous joint workshops. These alternatives are discussed in further detail in Attachment 2.

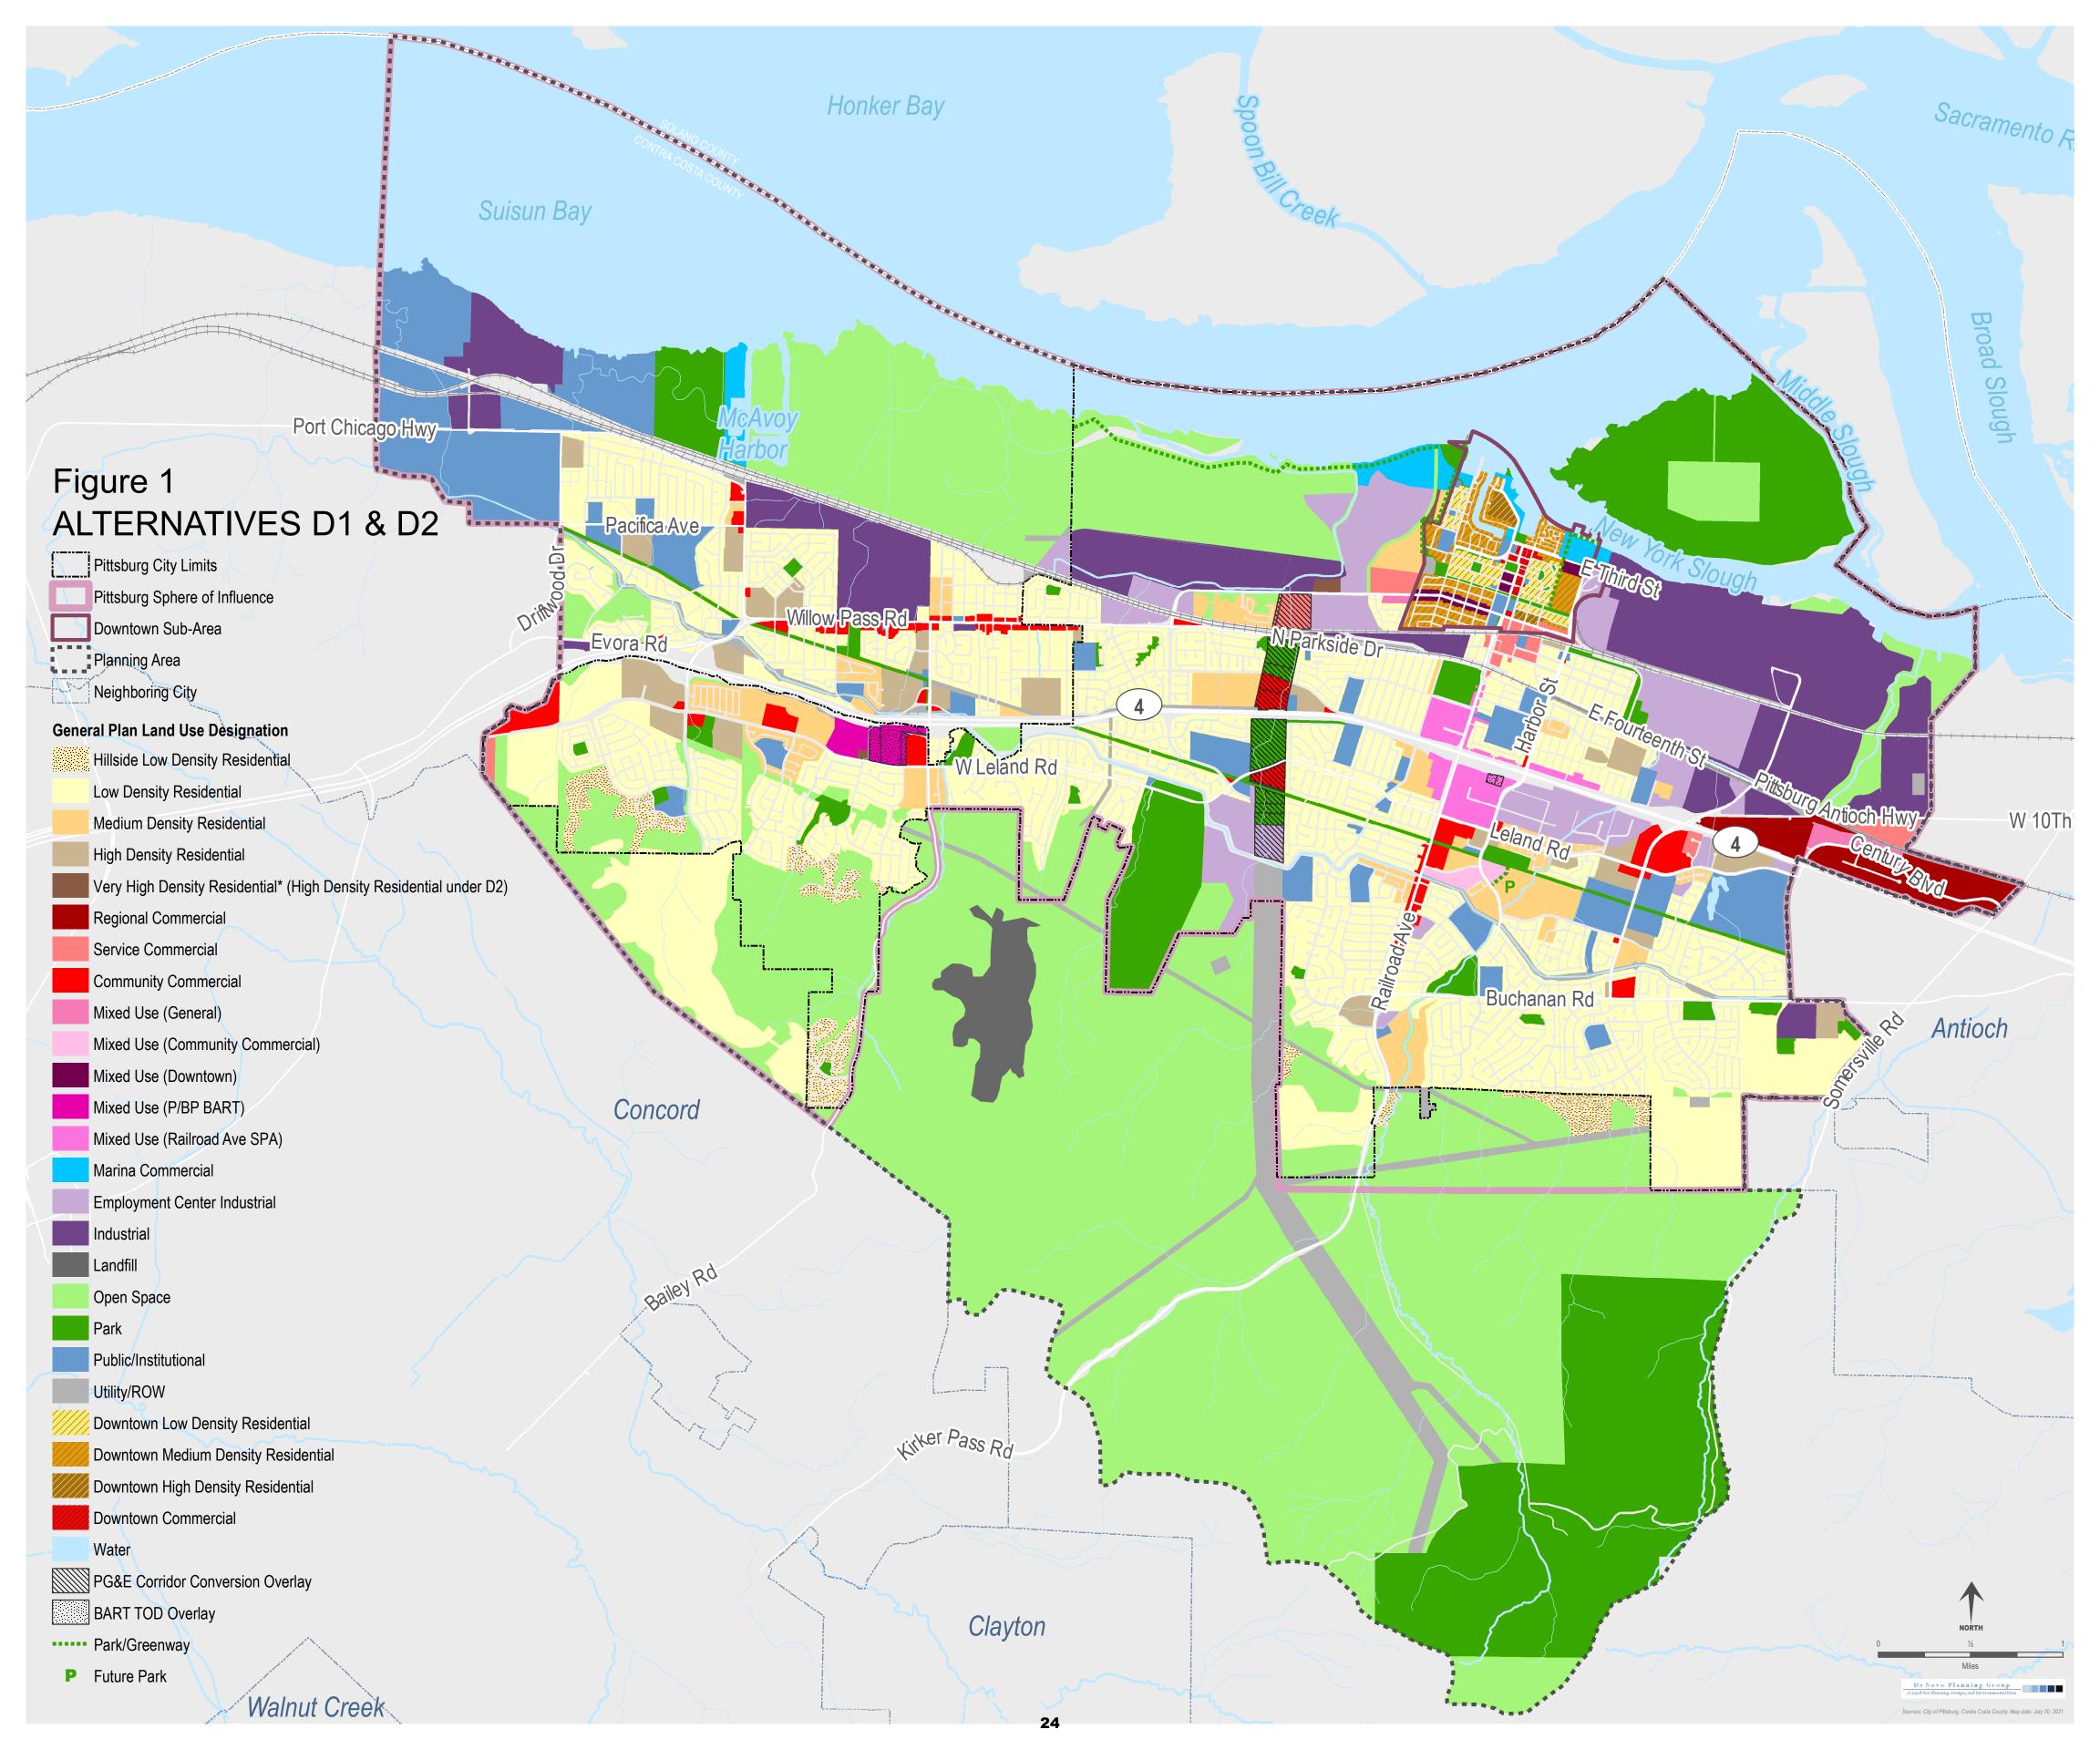

The next phase of the General Plan Update includes detailed analysis of the Preferred Land Use Map, including: 1) development of policies and programs in the Draft General Plan that will address growth and conservation under the Preferred Land Use Map; and 2) preparation of the Draft EIR, which will examine the environmental implications of the Draft General Plan, including the Preferred Land Use Map. This upcoming step in the process will address issues of concern identified through the visioning and community outreach efforts, including but not limited to:

- maintaining and enhancing Pittsburg's character;
- managing the location, type, and amount of growth and ensuring that the community's infrastructures and services are planned to keep pace with growth;
- providing for high-quality employment opportunities;
- providing recreation, entertainment, shopping, restaurants, and services for the City's households, with an emphasis on increasing opportunities for the City's youth;
- addressing environmental justice, including identifying and reducing any adverse effects to disadvantaged communities and identifying opportunities to improve equity and access to resources and amenities necessary for a high quality of life;
- conserving natural resources; and addressing environmental effects, including methods to adapt to the effects of a changing climate and sea level rise.

#### **PURPOSE**

Land Use Map Alternative D Scenarios 1 and 2 have been developed to refine the Alternative D Land Use Map to reflect City Council and Planning Commission input provided at the September 13, 2021 joint workshop to review Land Use Map Alternative D for the Envision Pittsburg General Plan Update. In general, the Planning Commission and City Council members agreed that Alternative D reflected their preferences identified at the June 14, 2021 joint workshop, including providing for robust jobs creation, enhancing the waterfront, and making the waterfront more accessible to the community.

To further refine Alternative D, the City Council and Planning Commission requested that staff and the consultant team address the following:

- Revise residential lands within the PG&E Corridor Overlay to the Park designation, and
- Provide options to reduce overall residential development, including mixed use and high/very high density residential uses, particularly in relation to allowing residential development on lands intended for employmentgenerating and community-serving uses.

To address the direction, two scenarios are presented for City Council and Planning Commission Consideration. Each scenario is described below. The Alternatives D1/D2 land use map is presented as Figure 1.

#### ALTERNATIVE D, SCENARIO 1 (ALTERNATIVE D1)

Alternative D1 refines Alternative D by:

- Changing residential lands (Low Density Residential, Medium Density Residential and High Density Residential) within the PG&E Corridor Overlay to the Park Designation; and
- Removing the potential for multifamily and mixed use development from the Employment Center Industrial, Service Commercial, and Regional Commercial land use designations.

## ALTERNATIVE D, SCENARIO 2 (ALTERNATIVE D2)

Alternative D2 includes the changes made under Alternative D1 and also replaces the Very High Density Residential designation with the High Density Residential designation. Specifically, Alternative D2 refines Alternative D by:

- Changing residential lands (Low Density Residential, Medium Density Residential and High Density Residential) within the PG&E Corridor Overlay to the Park Designation;
- Removing the potential for multifamily and mixed use development from the Employment Center Industrial, Service Commercial, and Regional Commercial land use designations; and
- Changing the Very High Density Residential lands to High Density Residential.

#### **GROWTH POTENTIAL**

Tables 1 through 3 summarize land use designations and growth data for Alternatives D1 and D2. Table 1 summarizes land use designations by acreage for the City, Sphere of Influence (SOI), and Planning Area and provides the total combined acreage for each designation for Alternative D1 and Alternative D2. It is noted that Alternative D2 assumes that the 18.7 acres designated Very High Density Residential would be changed to the High Density Residential designation under Alternative D2.

## COMPARISON OF ALTERNATIVES D, D1, AND D2

To provide context for the modifications between the original Alternative D and Alternatives D1 and D2, Table 4 identifies existing conditions and growth potential in terms of population, dwelling units, jobs, and jobs per housing unit for Alternative D (no modifications), Alternative D1, and Alternative D2. Table 4 compares the net growth for each of the alternatives under the Buildout Conditions (Additional Growth Accommodated Under Each Alternative) heading and identifies total growth, which includes existing conditions and the project pipeline.

The reduction in residential development for Alternatives D1 and D2, in comparison to Alternative D, is shown under the Change in Units column. Alternative D1 would result in a reduction of 10.8% in dwelling units and population based on additional growth accommodated by Alternative D1 and a reduction of 2.5% under buildout conditions, which considers existing development and development in the project pipeline. Alternative D2 would result in a reduction of 14.5% in dwelling units and population based on additional growth accommodated by Alternative D2 and a reduction of 3.4% under buildout conditions, which considers existing development and development in the project pipeline.
